

NASHIBA NASSAR

UI/UX Designer | Web & Mobile Experiences

Calicut, Kerala | +91 8592053548 | nashibanassar@gmail.com

linkedin.com/in/nashiba-nassar | Portfolio: nashiba.github.io/Nashiba-portfolio/

PROFILE

UI/UX designer with recently completed internship experience and a background in front-end development and cloud engineering. Designs mobile and web experiences through research, user flows, wireframes, and Figma prototypes, with a focus on clear interactions and practical implementation.

DESIGN EXPERIENCE

UI/UX Design Intern | Knovista, Remote / India | 2026

Designed Byte & Brew and a YouTube mobile redesign concept, developing user flows, wireframes, high-fidelity interfaces, and Figma prototypes. Conducted interviews and competitive analysis for the YouTube project; used AI-assisted exploration to frame Byte & Brew.

UI/UX Designer Apprenticeship | Functionary Lab, Calicut | Nov 2025 - Mar 2026

Developed Timish through research exploration, task flows, wireframes, and iterative prototypes. Contributed to Wraft by auditing the Book Template workflow and proposing improvements to template selection, editing, and styling.

SELECTED PROJECTS

Byte & Brew | Cafe and workspace mobile concept

Designed food pre-ordering, workspace reservations, and technical-support journeys. Prioritized ordering as the primary path, with reservations and support as optional additions; created reusable interface components and 13 final screens.

YouTube Redesign | Intentional viewing and digital wellbeing

Interviewed 8 users and explored six feature concepts. Designed discovery and Focus Mode screens, Shorts session setup, and a screen-time dashboard; gathered informal feedback to guide further iteration.

Timish | Visual time-awareness mobile app

Used secondary research and competitive exploration to shape visual time bars and task-duration choices. Refined wireframes through two design iterations into a focused prototype for session setup, progress, and reflection.

Wraft | Book Template UX audit and proposed redesign

Reviewed the document-creation workflow and proposed visual template selection, a larger writing area, consolidated typography controls, and clearer access to advanced tools.

SKILLS

UX and UI: User research, interviews, competitive analysis, user flows, journey mapping, wireframing, prototyping, UI audits, responsive design, design systems and components.

Tools: Figma, FigJam, Canva, Notion, Claude, Codex.

Development: HTML5, CSS3, JavaScript, Bootstrap, Materialize; design-to-code implementation.

ADDITIONAL EXPERIENCE

Freelance Front-End Web Developer | Calicut | Feb 2019 - Dec 2020

Built and maintained responsive websites using HTML, CSS, JavaScript, Bootstrap, and Materialize.

AWS Cloud Engineer | Potafo | Jan - Jul 2020

Designed and managed AWS infrastructure (EC2, S3, VPC, RDS), resolved defects, maintained security, backups, and networking, and supported informed purchasing decisions aligned with business needs.

DevOps Engineer | AH Infotech | Feb - Aug 2018

Worked on AWS infrastructure, application maintenance, troubleshooting, and technical documentation.

Teaching and mentoring: Taught coding fundamentals and technical concepts through schools, online platforms, and tuition centers.

EDUCATION AND CERTIFICATIONS

B.Tech in Computer Engineering | College of Engineering Cherthala (CUSAT) | 2012 - 2016

Google UX Design Professional Certificate | AWS Solutions Architect Associate | Red Hat RHCSA
